

CORCON

12-15 November 2014
MUMBAI

TECHNICAL HIGHLIGHTS

Cathodic & Anodic Protection

Coatings and Linings

Corrosion in Defence and Aerospace
Systems and Facilities

Corrosion in Petrochemical, Chemical
and Fertilizer Industries

Corrosion in Refinery Industry

Corrosion in
Transportation/Infrastructure

Corrosion Monitoring and Testing

Marine and Offshore Corrosion
Materials and Composites

Microbial Corrosion and Inhibitors

Power Plants and Utilities

Reinforced Concrete

Research in Progress

Students Session

**Technical Interactive Forum
(TIF) on contemporary topics
related to corrosion and its
control**

Supporters

CATEGORY PREFERENCE	PLATINUM	GOLD	SILVER
Benefits at a Glance	₹ 10,00,000 or US\$ 24,000	₹ 5,00,000 or US\$ 12,000	₹ 3,00,000 or US\$ 7,200
Complimentary exhibition booth	12 sqm	12 sqm	9 sqm
Complimentary number of delegates	12	6	4
Complimentary number of rooms (3 Nights)	6	3	2

Deadline for Abstract:
15th May 2014

Deadline for Full Paper:
30th July 2014

Deadline for Presentation:
30th September 2014

National Association of Corrosion Engineers (NACE) was founded by eleven corrosion engineers in Houston, Texas USA in 1943 and renamed as NACE International, The Corrosion Society in 1993. It is recognized around the world as the premier authority for corrosion control solutions. Built upon more than six decades of knowledge and expertise from dedicated members all over the world, NACE International is involved in every industry and area of corrosion prevention and control from chemical processing and water systems to transportation and infrastructure protection. NACE International has four areas in North America and four international areas. Over 110 sections within these areas sponsor local programmes to promote the exchange of corrosion information throughout the world. With more than 32,000 members from over 100 countries, NACE International has more than 350 technical committees covering the entire gamut of applications related to corrosion and its control. NACE international endeavors to achieve its mission of protecting people, assets and the environment from corrosion by publication of standards/recommended practices, reports, books, organization of education training programmes and annual conferences.

Established in 1992, NACE International Gateway India Section (NIGIS) has become one of the largest and most active sections of NACE International through its significant efforts for the promotion of corrosion awareness in India. It has done this by organizing annual conferences/seminars as well as education programmes and workshops on a regular basis. NIGIS is committed to promote NACE International's mission in India through its expanding membership and activities. With more than 1150 members, NIGIS has organized over 100 CIP Level 1, 2 & Peer Review, CIP 2 Emphasis, Nuclear course, Refinery Corrosion and CP 1, 2 & 3 certification courses of NACE International besides hosting 20 annual conferences. NIGIS recognizes that it must encourage the growth of corrosion science not only as a subject but also as a career through the development of professionals associated with it. To this end, NIGIS started the initiative of 'Corrosion Awareness Day'. To commemorate Corrosion Awareness Day, NIGIS presents awards to individuals and institutions for their contributions to corrosion awareness and developments in the field of corrosion science and technology.

NIGIS sponsors two student chapters, one each in Mumbai and Chennai / Kalpakkam. In 2013, the first ever NACE student conference in India for students, CORSYM, was organised by the NIGIS South Zone Student Section.

Established in 1927, FICCI is the largest and oldest apex business organisation in India. Its history is closely interwoven with India's struggle for independence, its industrialization, and its emergence as one of the most rapidly growing global economies. FICCI has contributed to this historical process by encouraging debate, articulating the private sector's views and influencing policy.

A non-government, not-for-profit organisation, FICCI is the voice of India's business and industry.

FICCI draws its membership from the corporate sector, both private and public, including SMEs and MNCs; FICCI enjoys an indirect membership of over 2,50,000 companies from various regional chambers of commerce.

The U.S. Commercial Service is the trade promotion arm of the U.S. Department of Commerce's International Trade Administration. U.S. Commercial Service trade professionals in over 100 U.S. cities and in more than 75 countries help U.S. companies get started in exporting or increase sales to new global markets.
